**FOR**

**REPLACEMENT OF THE SOUND BEACH AVENUE BRIDGE OVER CIDER MILL BROOK,  
ROADWAY IMPROVEMENTS ON SOUND BEACH AVENUE,  
INTERSECTION IMPROVEMENTS AT  
SOUND BEACH AVENUE, LADDINS ROCK ROAD, AND HARDING ROAD  
and  
SOUND BEACH AVENUE AT FOREST AVENUE**

**TOWN PROJECT NO. 12-17**

A revised preliminary design has been completed for the replacement of the Sound Beach Avenue Bridge over Cider Mill Brook (Bridge No. 03954), roadway improvements on Sound Beach Avenue, intersection improvements at Sound Beach Avenue, Laddins Rock Road, and Harding Road and intersection improvements at Sound Beach Avenue at Forest Avenue, in order to make the area more efficient and safer for the travelling public and pedestrians. The project is being designed by Weston & Sampson of Rocky Hill, CT.

The project is being funded through the Local Transportation Capital Improvement Program (LOTICIP) administered by the Connecticut Department of Transportation. Under the LOTICIP program, the Town is responsible for the design and the State of Connecticut funds 100% of the construction cost. Based upon a preliminary assessment, the construction cost will be approximately \$5 million.

It is the Town's and the State's policy to keep persons informed and involved when such projects are undertaken. It is important that the community share its concerns to assist in the project's development. The Town will conduct a public information meeting on Thursday, January 25, 2018, at 7:00 PM, at the Eastern Greenwich Civic Center, 90 Harding Rd, Old Greenwich, CT 06870.

Anyone interested in obtaining further information or providing input may do so by contacting Gabriella M. Circosta Cohee, P.E., Senior Civil Engineer, at (203) 861-3151.
