

When Medication is Prescribed

“Taking Medication Properly”

Staying healthy and recovering from an illness often requires a person to take medication. Taking medication properly can help prevent the worsening of symptoms, avoid hospital visits, and speed up recovery.

DID YOU KNOW?

- 60% of Americans take prescription drugs
- 75% of Americans report they don't always take medications properly
- 40% of Nursing Home Admissions are due to medication non-compliance
- 125,000 Americans die each year due to medication non-compliance.
